

Testimonial – Celsian Education Supply Agency

I would like to wholeheartedly recommend Celsian Agency in providing and servicing school staff recruitment and supply needs. Having used Celsian for over a year and since September 2009 we have exclusively used them as part of a Premier School Status package; their provision of excellent quality teaching staff, outstanding client liaison and administrative procedures have supported us to ensure effective provision for our pupils.

Client liaison and interpersonal relationships are highly valued and practised by them. Celsian have demonstrated excellent understanding of our specific requirements that directly support the criteria of the school and have ensured effective communication and appropriate staff are in place at all times. Indeed they have excelled in all our requests and have never let us down.
